

EZ-Gro-Nucleotides

NUTRIENT RICH YIELD ENHANCER

Guaranteed Minimum Analysis

Yeast Extract (*Saccharomyces cerevisiae*)100%

Yeast cells are rich sources of amino acids, B vitamins, sugars, phosphates and other essential nutrients. *S. Cerevisiae* is commonly referred to as bakers or brewers yeast. **Apply EZ-Gro-Nucleotides** to your plants and soil to assist nutrient uptake, promote growth, increase yield and quality, lengthen shelf life, and enhance crop resilience.

APPLICATION RATES - Foliar, Drench, In Furrow, Mixed with Fertilizer/Herbicide/Pesticide

Apply with enough water for thorough coverage of foliage or soil. Can be applied directly to soil before planting or in furrow. Shake before use.

CROP	G/HA	INSTRUCTIONS
Seed Application	N/A	500 g/MT
Greenhouse Field Vegetables & Root Crops (Tomato, Cucumber, Pepper, Potato, Carrot, etc.)	50	Two applications prior to bloom, commencing at 4-6 leaf stage, and at least 4 applications after bloom as needed
Small Fruits & Berries	50	Apply at 4-6 applications, at least once before bloom and at least twice after bloom
Field Crops (Soy, Wheat, Corn, Beans, Canola, Barley, etc.)	50	Apply 1-2 times before bloom and 2-3 times after bloom
Turf	50	Apply upon emergence and twice more during season
Fruit Trees (Apple, Plum, etc.)	50	Apply 3-4 times throughout season beginning at emergence
Soil and Compost	10 g / 100 L	Apply to soil/compost prior to planting and mix thoroughly
Potted Herbs, Vegetables & Flowers	Add 10 g of EZ-Gro-Nucleotides per 100 L of water, beginning at 4-6 leaf stage. Repeat monthly through grow and bloom cycles.	
Hydroponics	Add 0.1-0.5 g/1 L water (1-5g/10L) to tank or foliar spray beginning at transplant. Repeat weekly through grow and bloom cycles.	
Indoor/Outdoor Cannabis & Hemp	Add 10 g to EZ-Gro-Nucleotides per 100 L of water, beginning at 4-6 leaf stage. Repeat monthly through grow and bloom cycles.	

ATTENTION

Keep out of reach of children and animals. | Store in tightly closed container, in a dry, well-ventilated area. | Dispose of contents and packaging in accordance with local, regional, and federal requirements.
