

BIO-APP™ CYTO-BORO LIQUID BORON

Biostimulant with Abiotic Plant Protection Technology.

GUARANTEED MINIMUM ANALYSIS

Boron.....	8%
Kinetin.....	0.093%
Salicylic acid.....	0.03%
Ascorbic acid.....	0.03%
Thiamine HCl.....	0.03%

SOIL APPLICATION Apply alone, or as tank mix. Use sufficient agitation to insure proper mixing. Rates will vary from 5-15L/ha (2 to 8/L per acre), depending on local professional recommendation. Apply uniformly across field to prevent plant injury.

Foliar Application Rate:

Apply **EZ-Gro Bio-APP Cyto-Boro** 8% Liquid with enough water to thoroughly cover foliage. Early morning or late evening applications give the best results. Boron is not translocated easily within the plant; therefore, multiple applications at lower rates throughout the season would be more effective.

Boron plays an essential role in the development and growth of new cells in the plant meristem, affecting terminal growth, flowering and fruit development. Boron is required for protein synthesis, pollination and reproduction. Contains biostimulants and plant growth regulators found in nature. Cyto-Boro stimulates seedling and plant growth and may increase quality and yield. **EZ-Gro Bio-APP Cyto-Boro** helps to reduce transplant shock and increases root weight, and the number and size of flowers. Prevents against environmental stress and allows plants to grow with less water. **EZ-Gro Bio-APP Cyto-Boro's** unique patent pending formulation allowing for greater boron uptake and mobility.

FOLIAR APPLICATION Because of the nature of Boron deficiencies (growing point disorders), **EZ-Gro Bio-APP Cyto-Boro** 8% should be applied in multiple applications, e.g., 2.5-5L/ha (1-2 L /acre) per application at 10-14 day intervals during the rapid growing and/or fruiting stage. Do not exceed 5L/ha (2L/acre) of **EZ-Gro Bio-APP Cyto-Boro** 8% in any one spray application. Application rates of Liquid Boron 10% are suggested for use on all crops where the application of a soluble source of Boron is necessary or would be advantageous. Specific recommendations should be made by a Certified Crop Advisor, Professional Agronomist, or Agricultural Extension Service.

CAUTION: This fertilizer contains boron and should be used only as recommended. It may prove harmful when misused. Precautionary Statements: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe mist or vapor. Wear eye/face protection and protective clothing. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. First Aid: If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention. If exposed or concerned, get medical attention. Storage and Disposal: Do not contaminate water, food or feed by storage or disposal. Keep out of reach of children. Store locked up. Do not freeze. Dispose of contents/container in accordance with local regulations. / Prévention: Se procurer les instructions avant utilisation. Ne pas manipuler avant d'avoir lu et compris toutes les précautions de sécurité. Ne pas respirer les aérosols ou les vapeurs. Porter des gants de protection/ des vêtements de protection/un équipement de protection des yeux/du visage. Ne pas manger, boire ou fumer en manipulant ce produit. Se laver soigneusement après manipulation. Intervention: En cas de contact avec les yeux: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Si l'irritation oculaire persiste, consulter un médecin. En cas d'exposition prouvée ou suspectée, appeler un médecin. Stockage et Élimination: Ne pas contaminer l'eau, la alimentation ou le fourrage pour animaux lors du stockage et de l'élimination. Tenir hors de portée des enfants. Garder sous clef. Ne pas congeler. Éliminer le contenu/ récipient conformément aux réglementations locales. Stockage et de l'élimination. Tenir hors de portée des enfants. Conserver à l'écart de matières incompatibles. Éliminer le contenu/récipient conformément aux réglementations locales.
