EZ-GRO ORGANIC 0-10-10 provides a fast release source of fully soluble organic phosphorus and potassium to promote healthy plant development, fruiting and flowering. EZ-GRO ORGANIC 0-10-10 contains no sediment and has been manufactured so all nutrients are instantly available to your plant.

## DIRECTIONS FOR USE:

### OUTDOOR VEGETABLE AND GARDEN BEDS:

**Vegetative Stage & General Purpose:** Use at a rate of 4 ml per litre (1 tablespoon per gallon) of water every 3 weeks or as needed.

**Flowering Stage & Heavy Fruiting:** Use at a rate of 8 ml per litre (2 tablespoons per gallon) of water every 3 weeks or as needed.

### POTTED PLANTS, HYDRONICS, AND SOILESS GARDENS:

**Vegetative Stage & General Purpose:** Use at a rate of 2 ml per litre (1/2 tablespoon per gallon) of water every 7 - 14 days or as needed.

**Flowering Stage & Heavy Fruiting:** Use at a rate of 4 ml per litre (1 tablespoon per gallon) of water every 7 - 14 days or as needed.

### FIELD AND COMMERCIAL APPLICATION:

NOTE: If mixing with other products, it is recommended to perform a jar test to ensure compatibility.

**Fertigation, Drench, or Soil Application:** Can be applied via drip, flood, sprinkler, fertigation or other delivery system. Apply 15 - 150 litres per hectare (6 - 60 litres per acre) with sufficient water for full coverage. Apply every 14 - 21 days or as required.

**Foliar Application:** Apply 2.5 - 5 litres per hectare (1 - 2 litres per acre) with sufficient water for full coverage. Apply every 14 - 21 days or as required.
