

# EZ-GRO-NUCLEOTIDES

## NUTRIENT RICH YIELD ENHANCER

### Guaranteed Minimum Analysis

Yeast Extract (*Saccharomyces cerevisiae*) .....100%

Yeast cells are rich sources of amino acids, B vitamins, sugars, phosphates and other essential nutrients. *S. Cerevisiae* is commonly referred to as bakers or brewers yeast. **Apply EZ-Gro-Nucleotides** to your plants and soil to assist nutrient uptake, promote growth, increase yield and quality, lengthen shelf life, and enhance crop resilience.

### FOLIAR APPLICATION RATES

Apply with enough water for thorough coverage of foliage or soil.  
Can be applied directly to soil before planting or in furrow.  
Shake before use.

CROP	G/HA	INSTRUCTIONS
Field Vegetables & Root Crops	50	Two applications prior to bloom, commencing at 4-6 leaf stage, and at least 4 applications after bloom as needed
Small Fruits	50	Apply at 4-6 applications, at least once before bloom and at least twice after bloom
Field crops	50	Apply 1-2 times before bloom and 2-3 times after bloom
Turf	50	Apply upon emergence and twice more during season
Deciduous Trees & Nuts	50	Apply 3-4 times throughout season beginning at emergence
Soil and Compost	10 g / 100 L	Apply to soil/compost prior to planting and mix thoroughly
Potted Herbs, Vegetables & Flowers		Add 10 g of EZ-Gro-Nucleotides per 100 L of water, beginning at 4-6 leaf stage. Repeat monthly through grow and bloom cycles.
Hydroponics & Medical Marijuana		Add 0.1-0.5 g/1 L water (1-5g/10L) to roots beginning at transplant. Repeat weekly through grow and bloom cycles.

### ATTENTION

Keep out of reach of children and animals. | Store in tightly closed container, in a dry, well-ventilated area. | Dispose of contents and packaging in accordance with local, regional, and federal requirements.

1 L (1 Kg)

4 L (4 Kg)
